Prevention Investigation Documentation

This world map of experts, institutions and documents related to promotion of the Istanbul Protocol deals with active prevention, investigation and documentation of torture and other inhuman behavior. It is an outcome of a workshop that took place at the Multiplier Conference – Documenting of Torture in Europe, Leuven, Belgium, 15 March 2013. This world is one hand a tribute to the medical, legal and other helping professionals who have dedicated their career to this crucial area. On the other hand, it is an exclamation mark for those countries and places that are still empty. If you have been active in prevention, investigation and documentation of torture and we have not mentioned you in the map, please let us know, so we can fix it! Send your suggestion to the: email.alzbeta.srnadova@ktp-qualification.eu map for download at: www.istanbulprotocol.info

INSTITUTION		
Albania	1	AICT, Albanian Rehabilitation Centre for Trauma and Torture Victims
